Education

University of Michigan — Ann Arbor, MI
Ph.D., Electrical and Computer Engineering — Sept. 2022 – May 2026 (Expected)

Rutgers University — New Brunswick, NJ
M.S., Electrical and Computer Engineering — Sept. 2020 – May 2022

- Thesis: Optimization Problems with Low-Dimensional Tensor Structure
- Advisor: Prof. Anand D. Sarwate

Rutgers University — New Brunswick, NJ
B.S., Electrical and Computer Engineering (High Honors) — Sept. 2016 – May 2020

- Minor: Mathematics
- Thesis: Learning Predictors from Multidimensional Data with Tensor Factorizations
- Advisor: Prof. Anand D. Sarwate

Relevant Coursework

Graduate: High-Dimensional Probability, Probability Theory, Convex Optimization, Detection & Estimation Theory, Stochastic Signals & Systems, Machine Vision, Information Theory

Undergraduate: Linear Algebra, Machine Learning for Engineers, Linear Systems & Signals, Digital Signals Processing, Linear Optimization, Discrete Mathematics

Academic Experience

Teaching Assistant — Jan. 2020 – May 2022
Rutgers University — New Brunswick, NJ

- Served as a Teaching Assistant for Introduction to Computers for Engineers (MATLAB) with approximately 500 students
- Served as a Teaching Assistant for Digital Signal Processing for Prof. Waheed Bajwa with approximately 100 students, with materials available online (Link)
- Awarded the ECE Outstanding Teaching Assistant Award

Graduate Research Assistant — May 2020 – May 2022
Rutgers University — New Brunswick, NJ

- Conducted research in exploiting low-dimensional tensor structures on different types of optimization problems
- Researched in distributed differential privacy – a framework in which multiple data centers can collaborate to learn under sensitive data

Undergraduate Tutor — Sept. 2019 – May 2020
Rutgers University — New Brunswick, NJ

- Tutored advanced ECE courses such as Linear Systems & Signals, Digital Signals Processing, and Discrete Mathematics
- Awarded the ECE Departmental Leadership and Service Award

Research Intern May 2019 – Sept. 2019

Wireless Information Network Laboratory North Brunswick, NJ

- Performed data collection and pre-processed millimeter-wave sensor data for Convolutional Neural Networks to infer the type of activity performed
- Results were presented in the WINLAB Symposium, MIT Undergraduate Research Conference, IEEE DySPAN 2019, and ECE Research Day 2019
- Lead author to publication for demonstration at an IEEE conference

Work Experience

Applied Research Data Science Intern May 2022 – Aug. 2022

LinkedIn Corporation Remote

- Productionized a machine learning pipeline that predicted the amount of hardware the Infrastructure team needed to order at different time frequencies
- Prototyped an XGBoost and Random Forest Regression model for predicting the CPU usage of LinkedIn's Kafka clusters

Data Science Intern May 2020 – Aug. 2020

WellCare Health Plans Remote

- Automated the process of detecting expedition phrases in healthcare forms using Restricted Boltzmann Machines in Tensorflow
- Designed and optimized several machine learning algorithms (Support Vector Machines, Logistic Regression, XGBoost) for statistical inference on diseases given pharmacy data

Awards & Honors

* University of Michigan Rackham Graduate Fellowship 2022 – 2023
* Rutgers Outstanding Master's Student Award 2022
* Rutgers ECE Outstanding Teaching Assistant Award 2021
* Rutgers ECE Departmental Leadership & Service Award 2020
* Rutgers WINLAB GA/TA Grant 2020 – 2020
* James J. Slade Honors Scholar 2019 – 2020
* Rutgers University Dean's List 2018 – 2020

Technical Skills

* **Languages:** Python, MATLAB, SQL, Scala, C++
* **Software:** Git, Spark, Visual Studio, Tableau, Jupyter Notebook, Microsoft Office, LaTeX

Certificates

Neural Networks and Deep Learning (License #M6TYH2SFB6QV, by Andrew Ng, Coursera)
