## EDUCATION

**Rutgers University** New Brunswick, NJ  
M.S., Electrical and Computer Engineering Sept. 2020 – May 2022 (Expected)

- Thesis: Optimization Problems with Low-Dimensional Tensor Structure
- Advisor: Prof. Anand D. Sarwate

**Rutgers University** New Brunswick, NJ  
B.S., Electrical and Computer Engineering (High Honors) Sept. 2016 – May 2020

- Minor: Mathematics
- Thesis: Learning Predictors from Multidimensional Data with Tensor Factorizations
- Advisor: Prof. Anand D. Sarwate

## RELEVANT COURSEWORK

**Graduate:** High-Dimensional Probability, Optimization for Machine Learning, Probability Theory, Convex Optimization, Detection & Estimation Theory, Stochastic Signals & Systems, Machine Vision, Information Theory

**Undergraduate:** Linear Algebra, Machine Learning for Engineers, Linear Systems & Signals, Digital Signals Processing, Linear Optimization, Discrete Mathematics

## ACADEMIC EXPERIENCE

**Teaching Assistant** Jan. 2020 – Present  
Rutgers University New Brunswick, NJ

- Currently a Teaching Assistant for Introduction to Computers for Engineers (MATLAB) with approximately 500 students
- Served as a Teaching Assistant for Digital Signal Processing for Prof. Waheed Bajwa with approximately 100 students, with materials available online ([Link](#))
- Served as a Teaching Assistant for Linear Systems and Signals with approximately 50 students

**Graduate Research Assistant** May 2020 – Present  
Rutgers University New Brunswick, NJ

- Currently conducting research in exploiting low-dimensional tensor structures on different types of optimization problems
- Previously researched in distributed differential privacy – a private framework in which multiple sites can collaborate to learn under sensitive data

**Undergraduate Tutor** Sept. 2019 – May 2020  
Rutgers University New Brunswick, NJ

- Previously a Fish-Bowl Tutor for the Electrical and Computer Engineering Department
- Tutored advanced ECE courses such as Linear Systems & Signals, Digital Signal Processing, and Discrete Mathematics

## WORK EXPERIENCE

**Applied Research Data Science Intern** May 2022 – Aug. 2022  
LinkedIn Corporation Remote

- To be interning in the infrastructure sector of LinkedIn, researching and applying concepts from Federated Learning

	<b>Data Science Intern</b> WellCare Health Plans	May 2020 – Aug. 2020 Remote
	<ul style="list-style-type: none"> <li>Automated the process of detecting expedition phrases in healthcare forms using Restricted Boltzmann Machines in Tensorflow</li> <li>Designed and optimized several machine learning algorithms (Support Vector Machines, Logistic Regression, XGBoost) for statistical inference on diseases given pharmacy data</li> </ul>	
	<b>Research Intern</b> Wireless Information Network Laboratory	May 2019 – Sept. 2019 North Brunswick, NJ
	<ul style="list-style-type: none"> <li>Performed data collection and pre-processed millimeter-wave sensor data for Convolutional Neural Networks to infer the type of activity performed</li> <li>Results were presented in the WINLAB Symposium, MIT Undergraduate Research Conference, IEEE DySPAN 2019, and ECE Research Day 2019</li> <li>Lead author to publication for demonstration at an IEEE conference</li> </ul>	
PUBLICATIONS	<ul style="list-style-type: none"> <li>* <b>S. Kwon</b>, X. Yang, A. D.
